ankulmaurya88@gmail.com | 7081311842 | github.com/ankulmaurya88 | www.linkedin.com/in/ankul-maurya/

Full Stack Developer with 1 year of backend internship experience in developing scalable web applications using **Python, Django, Django REST Framework, React, PostgreSQL, and JavaScript**. Familiar with building backend applications using **Express.js** and experienced in designing RESTful APIs, relational databases, authentication, and modern software development practices.

SKILLS

- **Programming Languages:** Python, JavaScript, SQL
- **Frameworks:** Django, Django REST Framework, Flask, Express.js
- **Backend Concepts:** REST APIs, Logging, JWT Authentication, API Security, Pagination, Async Programming, Database Design
- **Frontend Technologies:** React, HTML5, CSS3
- **Databases:** PostgreSQL, MySQL, MongoDB, Redis
- **DevOps:** CI/CD, GitHub Actions
- **Tools :** Git, GitHub, Docker, Postman, Pytest
- **Core CS Concepts:** Data Structures & Algorithms, OOP, DBMS

WORK EXPERIENCE

Software Engineer Intern | Adrasti | 02/2025 – 03/2026 | Bengaluru

- Developed and maintained backend services for an ADAS infotainment system using **Python** and **RESTful APIs**.
- Owned and enhanced modules for **Music playback, GPS, and Map services**, improving system stability and scalability.
- Designed and optimized **database-driven APIs** to manage user preferences, location data, and service configurations using **SQL and NoSQL databases**.
- Implemented **API request validation, authentication checks, and structured error handling** to ensure secure and reliable service behavior.
- Refactored legacy code and optimized API response times to improve **performance and maintainability**.
- Worked with **logging and monitoring mechanisms** to debug production issues and improve system observability.
- Assisted in **deployment and environment configuration** across development and staging setups.
- Collaborated with cross-functional teams (frontend, QA, and system engineers) to support **end-to-end feature integration and testing**.
- Contributed to **technical documentation** and API specifications to improve onboarding and knowledge sharing.

Projects

E-commerce Application

Tech Stack: Python, Django, Django REST Framework, React, PostgreSQL

- Developed a full-stack E-commerce application using **Python, Django, Django REST Framework, React, and PostgreSQL**.
- Designed and implemented RESTful APIs for user authentication, product catalog, shopping cart, and order management.
- Built secure JWT-based authentication and role-based authorization.
- Designed a normalized PostgreSQL database with relationships between users, products, categories, carts, and orders.
- Implemented product search, filtering, sorting, and pagination for efficient data retrieval.
- Performed input validation, exception handling, and API testing using Postman.
- Managed source code using Git and GitHub.

Attendance Management System

Tech Stack: Node.js, Express.js, React, PostgreSQL, JWT

- Developed a full-stack Attendance Management System using **Node.js, Express.js, React, and PostgreSQL**.
- Designed and developed RESTful APIs for user management, attendance tracking, leave management, and reporting.
- Implemented secure **JWT authentication, role-based access control**, and password encryption using **bcrypt**.
- Designed a normalized PostgreSQL database with optimized relationships, constraints, and efficient SQL queries.
- Built attendance reports with filtering, searching, pagination, and date-wise report generation.
- Implemented robust input validation, centralized error handling, and API testing using Postman.
- Used Git and GitHub for version control and collaborative development.

EDUCATION

B.Tech in Computer Science & Artificial Intelligence NIET, Greater Noida | 2020 – 2024

Relevant Coursework:

Artificial Intelligence, Machine Learning, Operating Systems, Computer Networks

Achievements & Certifications

- Solved 250+ coding problems on GeeksforGeeks
- Top rankings in DSA challenges on HackerRank
- Machine Learning Specialization – Coursera
